- Turn to page 299 in your textbook. You will use the graph titled “European Immigration 1870 – 1920.”
- Using the information in the graph answer the following questions:
 - Which region provided the greatest number of immigrants in 1910?
 - What patterns do you notice?
 - Which two groups show the biggest increase in immigration from 1870-1920?
 - Did a shift in immigration change the demographics of the United States?
